Preparing for Rise in Covid19 Cases Driven by the Subvariants (17 July)

Last month, the Ministry of Health issued a press release on the rise in Covid-19 cases driven by the BA.4 and BA.5 subvariants.

No Changes to Safe Management Measures (SMM)

There are no changes to the SMMs for Worship Services at this juncture.

Exercise Social Responsibility

With the recent spike in community cases, we urge all members to be socially responsible by observing the prevailing SMMs and avoid social interactions if one has fever or respiratory symptoms, or tests positive for Covid-19.

Let us do our part in making Singapore a Covid-19 resilient nation.

Peace be with you,
Ps Andrew Ang
